BU021 Bulle Contact Fork Blank – Spring Steel

These forks have been cut in 0.20mm Carbon Spring Steel from a pattern taken from an original.
They are made to fit the Tall Bulle movement and will need to be finished with the Silver contact and Fibre insulator.
Height 23.00mm,
Width 13.00mm.
The contact rivet holes are 1.00mm.
The whole piece has been cut by precision wire erosion.

The price includes recorded delivery within the UK.
