

Eureka Four Glass Electric clock

An electric mantel clock by The Eureka Clock Company, dated 1911, fully overhauled and guaranteed for 3 years.

The mahogany five glass case has beveled glasses to all sides, all in perfect condition. The deep base conceals the battery pack. A brass plaque mounted on the base states that the clock was presented by The Territorial Red Cross Society in 1911.

The 4-inch white enamel dial is signed EUREKA CLOCK CO LTD/LONDON with blued steel hands. The movement is stamped NO. 7193/PATENT NO 14614/1906. The wheel rotates back and forth through 270°, making this an interesting clock to behold.

Designed in America, the Eureka Clock Company in London, England made these clocks between 1908 and 1914.

Height: 13¼ inches (34cms)

Width: 8¼ inches (21cms)

Depth: 6¾ inches (17cms)

To be overhauled and guaranteed for 3 years.
