

ATO Electric Wall Clock

A slim electric 1920/30s French wall clock by ATO within a chrome bound and blackened metal glazed case.

The 8" square silvered dial has a subsidiary seconds dial.

The movement is driven by a conventional 1.5V battery, and has a half-second pendulum. The movement is stamped Leon Hatot, with the serial number 111374.

Height: 16½"

Fully overhauled and guaranteed for 3 years.

An interesting history of ATO clocks can be found [here](#).

Price includes delivery within mainland UK.
