

Early C19th Mercury Barometer by Somalvico

A fine Regency wheel barometer by well-known maker Somalvico.

The case is a lovely dark mahogany brown, edged with a double line of contrasting boxwood stringing and with marquetry fan inlay. The case has an architectural pediment with a brass pineapple finial in the classical style.

It is fitted with long thermometer box with silvered brass scale and alcohol filled tube over the barometer.

The 8 inch silvered dial is signed for *J. Samalvico, 125 Holborn Hill, LONDON* with a blued steel hand.

The cast brass bezel is fitted with flat glass and a polished brass pointer hand.

Height - 40 inches

Overhauled and guaranteed for 3 years.

Price includes delivery within mainland UK.
