

Small Mantel clock, V.A.P Brevete

Dating from c.1870, a small French mantel clock timepiece, or large carriage clock in a walnut case. At only 4 inches in depth, this will fit most mantelpieces.

The clock has a perfect white enamel dial with Roman numerals within an outer minute track and fine blued steel hands.

The overhauled 8-day timepiece movement is stamped *V.A.P. Brevete* on the backplate, regulated by a cylinder escapement.
